Project Description: The proposed project consists of a new, approximately 40,000 to 50,000-gross-square-foot Opportunity to Advance Sustainability, Innovation and Social Inclusion (OASIS) Park Project. The proposed project is a collaboration between UC Riverside's Bourns College of Engineering Center for Environmental Research and Technology, Office of Innovation and Entrepreneurship, and University Extension to provide a space where university research intersects with local entrepreneurs and future clean tech workers. The OASIS Park facility would provide research, teaching, offices, and administrative space, and shared gathering spaces as well as usable open space, accessible pedestrian pathways, working yard(s), and landscape and hardscape improvements. In order to construct the OASIS Park Project, the existing University Extension building and parking structure would be demolished.
