## UCR Project No. 958802

December 19, 2019

RFQ for Environmental Consulting Services for the Riverside Unified School District (RUSD) Science, Technology, Engineering, and Mathematics High School (STEM HS) at the University of California, Riverside

## **ADDENDUM 1: QUESTIONS & RESPONSES**

What technical studies have been prepared thus far for the proposed STEM HS site?  • Geologic & Environmental Hazards Assessment • Pipeline Safety Hazard Assessment • Rail Safety Study The following technical study is currently being prepared: • Department of Toxic Substances Control (DTSC) Preliminary Endangerment Assessment All technical studies will be shared with the selected consulting firm.  Does University of California, Riverside (UCR) have a preferred traffic consultant? If not, what firm prepared the most recent traffic/circulation plan?  The following technical studies have been prepared: • Geologic & Environmental Hazards Assessment • Pipeline Safety Hazard Assessment • Rail Safety Study The following technical studies have been prepared: • Geologic & Environmental Hazards Assessment • Pipeline Safety Hazard Assessment • Rail Safety Study The following technical studies have been prepared: • Geologic & Environmental Hazards Assessment • Pipeline Safety Hazard Assessment • Rail Safety Study The following technical studies have been prepared: • Geologic & Environmental Hazards Assessment • Pipeline Safety Study The following technical studies have been prepared: • Department of Toxic Substances Control (DTSC) Preliminary Endangerment Assessment All technical studies will be shared with the selected consulting firm.  The following technical studies have been prepared: • Department of Toxic Substances Control (DTSC) Preliminary Endangerment Assessment All technical studies will be shared with the selected consulting firm.  The following technical studies have been prepared: • Department of Toxic Substances Control (DTSC) Preliminary Endangerment Assessment All technical studies and the selected consulting firm.  The following technical study is currently being prepared: • Department of Toxic Substances Control (DTSC) Preliminary Endangerment Assessment All technical studies will be shared with the selected consulting firm.	<u>Question</u>	<u>Response</u>

## Planning, Design & Construction UNIVERSITY OF CALIFORNIA, RIVERSIDE 1223 University Ave | Suite 240 Riverside CA 92521

UCR Project No. 958802

OCK Project	
Should fees be included if a proposal is included now?	No fees including hourly rate sheets are included in this submittal.
Will the page limitations be expanded to include the requested proposal and schedule along with the qualifications?	Although proposals and schedule are not included in this submittal, the page limitation has been expanded to 40 pages so that firms can include resumes.
Will the University extend the submittal deadline?	Due to the upcoming holidays, the University will extend the submittal deadline to <b>Friday, January 10, 2020 at Noon</b> .
Should the resumes be included as part of the maximum page count or can they be included as a separate appendix (thus not counting toward the maximum page limit)?	Resumes will be counted towards the maximum page count of 40 pages.
We understand that the organizational charts requested should include a) a chart indicating role and relationship among firms (i.e. prime → sub → sub) and b) a chart indicating names and roles of individual staff team members (e.g., Susie Q, Project Manager; Tommy Lee, Noise Specialist; Speed Racer, Traffic Engineer). Please confirm.	Yes, that is correct.
Our firm previously believed UCR solicited an EIR for the LRDP around 2018. The last posted LRDP EIR was in 2011. How is this project related to that new document solicited in 2018? Could you also tell us what firm was awarded that 2018 project?	The University is currently in the process of updating an LRDP and preparing an LRDP EIR. The selected environmental consultant was Rincon.
If we have additional questions after the Addenda is posted, who do we contact?	Please contact the following: Stephanie Tang Campus Environmental Planner Email: stephanie.tang@ucr.edu  The last date for additional questions will be Monday, December 30, 2019 with a subsequent Addenda posted on the University's website COB Monday, January 6, 2020.
The solicitation mentions that hand delivery is encouraged. If submitters use an overnight delivery service (i.e., FedEx), are there any special instructions that should be mentioned to FedEx on time and to the appropriate party?	Please submit to:  Stephanie Tang  Campus Environmental Planner  Planning, Design & Construction  1223 University Avenue, Suite 240  Riverside, CA 92507
